Learning ASL Series

Signing Online offers a series of four ASL courses that will give the basic skills you need to become fluent in ASL.

Upon completion of all four courses, you will know how to greet people, ask questions, describe things, tell stories, name things, express your feelings, and more. You will have learned over 800 signs and know how to put them together to carry on meaningful conversations in ASL.

Course Organization

Each course contains 10 lessons for a total of 40 lessons. Each ASL lesson is based on seven easy steps:

Step 1: Learning the Signs

There is a dialog between two people in each lesson. You are shown how to sign each ASL sign used in the dialog.

Step 2: Creating Sentences

Each dialog is separated into sentences. A clear description is given of how the sentences are translated from English to ASL. You are shown how to sign each sentence.
